23 November 2018

Dear families,

### Wensum Junior School annual Science Fair – a very important date for your diary

As you know we have all been busy *working as scientists* this term. It has been amazing seeing the children learning about science and making discoveries about the world around them. This project culminates in a Science Fair at school on **Wednesday 5th December from 3.15 - 5.00pm**. Please put this date in your diary as we'd love you and your family to join us in celebrating the children's achievements.

This term Year 3 have been learning about the human body. Year 4 have been exploring ecosystems. Year 5 have been finding out about Earth and space, and Year 6 have been looking at chemistry and physics. Having learned all about their specialist area, the children have two weeks in school to carry out their own science investigation as they *work as scientists* to answer a question that really interests them. The resulting projects will be on show at the Science Fair. There will also be displays, presentations and activities by a range of visiting experts to excite, inspire and engage the whole family. This includes an inflatable planetarium; a rainforest tent; the Bug Man Science Show; Norfolk Wildlife Trust and much, much more.

**Please note there will be no hot dinners on Wednesday 5<sup>th</sup> December. Please supply your child with a packed lunch from home. If your child is entitled to free school meals a packed lunch will be provided for them.**

### Win an iPad

Our technology suppliers, Gaia, have generously donated an iPad which we will raffle at the end of the event. Raffle tickets are priced at £5 and will be available from the front office from Monday 26<sup>th</sup> November.

If you have any questions or would like to discuss any aspect of the Science Fair, then please catch me on the gate. We all look forward to seeing you there!

Peter Hubery, Deputy Headteacher
