Dear Families,

Central to our whole school vision of developing children who are 'honest, kind and respectful, brave and articulate, in a community dedicated to the growth of independent, imaginative and inquisitive people', is that the children at Wensum are equipped with the skills and values which will enable them to become active citizens. An essential element of this is Relationships and Health education.

Relationships Education will put in place the building blocks needed for positive and safe relationships, including with family, friends and online. Your child will be taught what a relationship is, what friendship is, what family means and who can support them. In an age-appropriate way, we will cover how to treat each other with kindness, consideration and respect.

Health Education aims to give your child the information they need to make good decisions about their own health and wellbeing, to recognise issues in themselves and others, and to seek support as early as possible when issues arise

This term:

Year 3 will be learning about the differences between the male and female body and about the scientific names for different body parts.

Year 4 will be learning about the human lifecycle.

Year 5 will be learning about emotional and physical changes that occur during puberty.

Year 6 will be learning about puberty and reproduction.

An all through policy, covering both Nelson and Wensum, will be available on the school website following governor approval. A provisional policy is available for you to look at now. Please feel free to contact the class teachers if you have any concerns or queries.

Kind regards

Mark Swan

PSHE co-ordinator
