---

Dear families,

13/12/21

I am thrilled to announce that we are planning a trip to the [National Space Centre](#) in Leicester as part of the launch event for the Year 5 and 6 space project. The trip will take place on Tuesday 1st March 2022.

It will be an early start and late return. We will be leaving Wensum at 7.30am and returning by 6.00pm. This will ensure that we have a good amount of time at the centre. Whilst we are there children will watch a film in the centre's huge planetarium; will enjoy a live science show called *It is rocket science*, and will tour the many wonderful exhibits which include incredible objects, artefacts and *actual spacecraft* from the history of space exploration. For more information, please visit the website via the link above. Having run this trip before I know that it is an incredible experience for children and adults alike.

The school will be making a significant contribution to the trip, covering two thirds of the full amount. We do, however, ask families to make a small contribution of £10. I hope that you agree that this represents extraordinary value.

Payment can be via Schoolmoney and the deadline is January 28th 2022. Please note that we have a minimum threshold that we need to meet. If we don't then the trip cannot go ahead. If you have any questions, then please come and see me or your child's teacher.

Yours sincerely,

Peter Hubery  
Deputy Headteacher
